

DENBOW

innovating naturally

Benefits of using mulch:

- ✓ Weed suppression
- ✓ Retains moisture for plants during warm weather.
- ✓ Acts as an insulator that keeps the soil cool under intense sunlight and warm during cold weather.
- ✓ Conserves water and reduces evaporation of water from soil.
- ✓ Reduces soil erosion caused from wind and water.
- ✓ Prevents crusting of the soil surface, thus improving absorption and percolation of water into the soil.
- ✓ Bark mulch will not deplete nitrogen in the soil when placed around plants
- ✓ Provides a beautiful finished, tidy look to landscaping & shows off plants & shrubs

MULCHES

Black Coloured Mulch

Denbow provides a variety of premium mulches for landscaping:

Aged Bark Mulch

OUR RECOMMENDATIONS

- ✓ To aid in weed control, initially apply mulch 2-4" deep
- ✓ It is best to apply mulch in spring or fall before heavy weed growth periods.
- ✓ Leave space around the base of your plants – don't crowd the plant base with mulch.
- ✓ Rake mulch 1-2 times per year between applications.
- ✓ Apply 1 to 2 inches per year to maintain proper depth and a fresh, clean appearance.
