

Playground surfacing top-ups just became “somebody else’s problem”!

Put your trust in Denbow’s PlayChip Top-up Program for school districts, park and municipalities.

Our program is the cost-effective solution to maintaining playground surface safety.

Not only has Denbow manufactured and supplied our tested, certified wood fibre playground PlayChips for many years, we also operate the largest fleet of Express Blower Trucks in the province. With this combination, we have proven we are able to meet the ongoing demands of schools and municipalities throughout BC, while offering direct-from-the-source pricing.

How does the PlayChip Top-Up Program work?

You provide us with a list of playgrounds that require material or your budget for top-ups.

We will:

- calculate quantity required and provide you with a quote to top-up all the areas
- supply and install certified Denbow PlayChips with blower trucks
- pass the savings of multiple sites in one mobilization on to you!

Benefits of installation via blower trucks

- no wasted material
- no damage to turf or landscape
- efficient installation at multiple sites per day
- no fencing required; playground remains open except for during installation
- your labour force is available for other necessary tasks
- we make your job simple - just call us!
