

DENBOW

innovating naturally

Not everybody we work with is a landscape professional. Far from it. We work with hundreds of residential homeowners who take great pride in caring for their own yards, ranging from just a couple of flower beds, to sprawling, multi-acre lawn and garden masterpieces. However, maintaining that little home oasis in the scope of a busy life can be overwhelming; even for the well-equipped weekend hobbyist.

"The guys did a great job! We anticipated having to do much more work ourselves, even cancelled our dinner guests so that we'd have the time. We are very happy and will certainly use your services again." 

LANDSCAPE SUPPORT SERVICES

How Denbow Helps

Denbow Blowing Services

Our fleet of Express Blower trucks allow us to precisely place mulch, soil and aggregate exactly where you want it. No equipment damaging your lawn, no messy piles left behind, and great for hard-to-reach areas or severe slopes. Plus, you don't even need to wait at home while it's done!

Seeding and Topdressing

Denbow's trained crews are experts at effectively top-dressing or reseeding your lawn for a dense, healthy look. Our blower trucks allow us to evenly apply seed or soil more effectively than can be done manually by rakes and shovels.

Bulk Delivery and Supply

Delivery is the backbone of our business, and we'll be happy to "push out" any product we sell to your property - just a few yards or multiple loads. Or, situated conveniently between Chilliwack and Abbotsford right off the freeway, it's quick and easy to drop by and have us load your vehicle up while you wait.
